Note: Mail Processing and Delivery

The statistics for mail processing and delivery indicate the average time required to process mail from the time it is received in the Mail Room of the Patent and Trademark Office until it is delivered to the organization. For example, it reflects the time it takes for a paper to be delivered to an Examining Group, not the Examiner. Mail often receives additional clerical processing in the Group, depending on the type of document. It is not unusual for mail to take a few weeks to actually reach the Examiner. However, the official receipt date is that which is stamped in the Mail Room, reflecting the date the mail was received in the Office.

SUPPLEMENTARY INFORMATION: This proposed rule change is designed primarily to implement the Patent and Trademark Office fees which are provided for by Public Law 96-517, or which would be set in, or provided for by, H.R. 6260.

Public Law 96-517

Public Law 96-517 presently requires that fees be established by the Commissioner for the processing of patent applications from filing through issuance or abandonment, for maintaining a patent in force, and for providing all other services and materials related to patents. Public Law 96-517 requires that by October 1, 1982, fees for the processing of patent applications, other than design patents, be set by the Commissioner to recover in aggregate 25 per centum of the estimated average cost to the Office of such processing. Similarly, fees for processing design

patents are to be set to recover in aggregate 50 per centum of the estimated average cost to the Office of such processing. By October 1, 1982, fees for all other services or materials related to patents are to be set to recover the estimated average cost to the Office of performing the service or furnishing the material.

Public Law 96-517 also requires that fees be set for maintaining all patents filed on or after December 12, 1980, other than design patents, in force. It also requires that maintenance fees must recover 25 per centum of the estimated cost to the Office of processing patent applications, other than design patent applications, by the fifteenth fiscal year following December 12, 1980. Under Public Law 96-517, the maintenance fees are due 3½, 7½, and 11½ years after grant of the patent.

Public Law 96-517 is presently effective and this rule change is designed to implement the fee provisions of that law if it remains fully effective on October 1, 1982. However, on June 8, 1982, the House of Representatives passed H.R. 6260. This rule change proposal is also designed to permit the implementation of the fee provisions of H.R. 6260. This proposed rule change is intended to obtain comments which would enable a final rulemaking to be adopted based on Public Law 96-517 and/or on H.R. 6260, without a further notice of proposed rulemaking. Accordingly, comments on proposed rule changes which are common to Public Law 96-517 and to H.R. 6260 are requested herein as well as comments on alternative rule changes which are specific to Public Law 96-517 (Alternative A) and to H.R. 6260 (Alternative B).

H.R. 6260

H.R. 6260 would establish a number of statutory fees which the Commissioner is required to charge. Among the more significant of these are fees for filing, issuing, and maintaining a patent in force. The fees for filing and issuing a patent would be set forth in §41(a) of Title 35, United States Code, as proposed to be amended by H.R. 6260. Certain other fees, such as appeal fees, the fee for filing a disclaimer, and fees for filing petitions seeking to revive an abandoned application and for extensions of time, would also be set in §41(a) of Title 35, United States Code. Section 41(b) of Title 35, United States Code, as proposed to be amended by H.R. 6260, would set forth the fees for maintaining a patent in force. These fees would be due 3½, 7½, and 11½ years after grant of the patent or within a grace period of six months thereafter. Section 41(c) of Title 35, United States Code, as proposed to be amended by H.R. 6260, would provide for the acceptance of maintenance fees after the statutory grace period under certain conditions and with certain effects.

H.R. 6260 would also provide for the reduction by 50 per centum in the fees paid under §41(a) and (b) of Title 35, United States Code, by independent inventors, small business concerns, and

nonprofit organizations, who meet the definitions established, and to be established therefor.

Section 41(d) of Title 35, United States Code, as proposed to be amended by H.R. 6260, would also provide that the Commissioner establish fees for all other processing, services, or materials related to patents which are not covered in §41(a)-(c) of Title 35, United States Code, to recover the estimated average cost to the Office of the processing, services, or materials. H.R. 6260 includes other provisions which would be the subject of other proposals for rulemaking.

This proposed rulemaking places into the appropriate sections of Title 37, Code of Federal Regulations, the various fees which are due on filing, during the pendency of a patent application, or during the term of a patent. A number of significant changes are proposed in order to implement either Public Law 96-517 or H.R. 6260.

Under H.R. 6260, and Alternative B of this proposed rulemaking, fees under §41(a) and (b) of Title 35, United States Code, would be reduced by 50 per centum for independent inventors, small business concerns, and nonprofit organizations. H.R. 6260 would give the Commissioner authority to establish regulations defining independent inventors and nonprofit organizations. H.R. 6260 defines small business concerns by reference to §3 of the Small Business Act and regulations established by the Small Business Administration. This proposed rulemaking proposes implementation of the fee system which would be established by H.R. 6260 and lists all applicable fees.

Another significant change contained in this proposal relates to fees established under Public Law 96-517 and which would be established by H.R. 6260 for petitions for extensions of time to take actions required by the Commissioner in an application. H.R. 6260 would establish a fee of $50 for filing a petition for a first one-month extension of time, an additional fee of $100 for filing a petition for a second one-month extension of time which would expire two months after the end of the time period set for taking action, and an additional fee of $200 for filing a petition for a third one-month extension of time which would expire three months after the end of the time period set for taking action. A fourth one-month extension with an additional fee of $200 could be requested if additional time was available under the statute. Under H.R. 6260, the Commissioner would have authority to issue regulations providing when, within any maximum time period permitted by statute, petitions for extensions of time, and the required fee therefor, may be filed. The Commissioner would also not be precluded by H.R. 6260 from waiving the fee for filing a petition for an extension of time where the Office extends the period due to equity considerations or sufficient cause. This proposed rulemaking proposes to implement the extension of time provisions of H.R. 6260 by

permitting applicants in the majority of situations to file the petition for an extension of time and the fee at the time of and along with the filing of the response for which a non-statutory or shortened statutory time period has been set. This would reduce the amount of paperwork involved and should significantly reduce the expenses of applicants and the Office since resources now devoted to the separate processing of petitions for extensions of time would no longer be required to be expended thereon. The fees are set to provide a proper control on the number of extensions of time given. This proposal would establish, under Public Law 96-517, the same procedures relating to extensions of time which would be established under H.R. 6260.

Another significant change contained in this proposal relates to the implementation of the fee for revival of an unintentionally abandoned application which would be authorized under H.R. 6260. H.R. 6260 would establish two different fees for filing petitions with different standards to revive abandoned patent applications. The same two fees would be applicable to petitions to accept the delayed payment of the fee for issuing a patent. Under H.R. 6260, a fee of $50 would be established in §1.17(l) for filing a petition for revival under §§133 or 151 of Title 35, United States Code, in accordance with standards presently in effect where the delay resulting in the abandonment, or the delay in payment of the issue fee, was unavoidable. Under H.R. 6260, a fee of $500 would be established in §1.17(m) for filing each petition for revival, or for acceptance of the delayed payment of an issue fee, where the abandonment or the failure to pay the issue fee was unintentional. A mere statement that abandonment was unintentional plus the $500 fee is all that would be required in this case for this purpose. Under H.R. 6260 and the proposed rulemaking an applicant would have a choice of which petition and fee to file seeking revival depending on the circumstances involved.

The proposed rulemaking also provides for fees for filing certain petitions which have, in some cases, heretofore, been decided without a charge. These fees are proposed under Public Law 96-517 and are provided for by the amendment of §41(d) of Title 35, United States Code, which would be introduced by H.R. 6260. Under §41 of Title 35, United States Code, as amended by Public Law 96-517 or as it would be amended by H.R. 6260, fees are provided for the processing of various petitions desiring certain actions to be taken regarding patent applications, for the recording of assignments, for reexamination of patents, and for the processing of international applications under the Patent Cooperation Treaty. In general, fees are not being proposed for those petitions which are supervisory in nature. For example, where applicants are petitioning from an allegedly improper action of the examiner, it is felt that such petitions should be processed and decided without charge since they are not asking for any special privilege but are attempting to correct an allegedly incorrect Office holding.

Many of the fees currently set forth in §1.21 are proposed to be increased to reflect the cost of currently performing that service.

DISCUSSION OF SPECIFIC SECTIONS PROPOSED TO BE CHANGED

The sections proposed to be changed are grouped in this proposal under three different categories. Those changes which are common to Public Law 96-517 and H.R. 6260 appear first and are numbered 1-56. Those changes which relate only to Public Law 96-517 appear as Alternative A and are numbered 57-63. Those changes which are dependent upon enactment of H.R. 6260 appear as Alternative B and are numbered 64-74.

Proposed Rule Changes Common To Public Law 96-517 and H.R. 6260

The following sections are proposed to be changed under either Public Law 96-517 or H.R. 6260:

Section 1.11, if amended as proposed, would change the reference for the reexamination request fee to that proposed in this change.

Section 1.12, if amended as proposed, would break the section into four paragraphs. Proposed paragraph (a) maintains current practice but adds specific reference to §1.19(a)(5) which sets the cost of copies. Proposed paragraph (b) maintains current wording except for changing "his" to "applicant's". Proposed paragraph (c) includes new language relating to obtaining copies of assignment records not open to the public. Access can be obtained only with the applicant's permission or by petition with fee to the Commissioner for such access in particular situations. No change in the showing required by petition to obtain access is intended by this proposal. Proposed paragraph (d) contains present language except for reference to the specific rule which sets forth the charge for time consumed in making assignment searches.

Proposed new paragraph (e) of §1.14, if added as proposed, would set forth the two ways in which access can be obtained to patent applications which are not open to the public. The two ways are (1) by petitioning and paying the petition fee and approval of the Commissioner of such petition and (2) by obtaining written approval from the applicant.

Proposed new §1.19 would provide fees for copies of various documents supplied by the Office. The fees have been grouped into 5 paragraphs. Proposed new paragraph (a) provides fees for uncertified copies. Proposed subparagraphs (a)(1) and (2) indicate the prices of printed patent copies. Proposed subparagraph (a)(3) would provide a single fee for a copy of an application, as filed, for each 50 pages, or fraction thereof.

This practice should make it much easier to determine the amount of the required fee. Proposed subparagraph (a)(4) would set a single fee for a copy of each 100 pages, or fraction thereof, of a patent file wrapper. Proposed subparagraph (a)(5) would provide for a charge of 30 cents per page for copies of Office records other than those covered by proposed subparagraphs (a)(3) and (4). Proposed subparagraph (a)(6) would provide a fee for a microfiche copy of a microfiche.

Proposed paragraph (b) of §1.19 sets fees for certified copies of Office documents. Subparagraph (b)(1) sets a fee for certifying Office records. Subparagraph (b)(2) provides a single fee for searching assignment records, preparing an abstract of the title and certification thereof. Subparagraph (b)(3) provides a fee for comparing copies not prepared by the Office prior to certification in order to provide basis for certification. Proposed paragraph 1.19(c) sets the fees for subscribing to all of the patents issued annually in particular subclasses. This charge is in addition to the normal copy charge under §1.19(a)(1) and (2). Proposed paragraph 1.19(d) sets the fee for providing patent copies to libraries under 35 U.S.C. 13. Proposed paragraph 1.19(e) provides fees for lists of United States patents in particular subclasses.

Section 1.21, if amended as proposed, would contain those miscellaneous fees which do not relate to the topics covered in proposed §§1.16-1.20. Current §1.21 has not been reproduced to show deletions in view of the length of the present rule. All of the fees in §1.21 are proposed under the authority given the Commissioner by 35 U.S.C. 41(d) as amended by Public Law 96-517 or as proposed in H.R. 6260. Proposed paragraph 1.21(a) would establish fees for admission to the examination for registration to practice, registration, reinstatement and issuance of certificates of good standing of patent attorneys and agents. Proposed subparagraph 1.21(b)(1) sets forth the fee for establishing and reinstating deposit accounts, while subparagraph 1.21(b)(2) sets forth the fee due when the balance at the end of each month is below $40. Proposed paragraph 1.21(c) sets the fee for filing a disclosure document. Proposed paragraph 1.21(d) sets the fee for renting a delivery box. Proposed paragraph 1.21(e) sets the fee for an international-type search report. Although all national applications now receive what is known as an international-type search, if a report thereof is desired in addition to an Office action, the fee set in §1.21(e) is required. Proposed paragraph 1.21(f) sets a fee for searching Office records for purposes not otherwise specified. Proposed paragraph 1.21(g) sets the fee for tokens for copying machines. Proposed paragraph 1.21(h) would set the fee for recording assignments, agreements, and other documents. Proposed paragraph 1.21(i) would set forth the fee for publishing a notice of availability of a patent for licensing or sale in the Official Gazette. Proposed paragraph 1.21(j) would set the fee for the Office providing a duplicate or replacement of a permanent Office

user pass. Proposed paragraph 1.21(k) would indicate that the Commissioner may specify charges for items and services not otherwise specified at a level to recover the actual cost of providing such a service by the Office.

Section 1.24 is proposed to be revised so that the denomination of coupons sold by the Office will be in more convenient amounts for fees as proposed.

Section 1.25, if amended as proposed, would provide in paragraph (a), a reference to the fee for establishing a deposit account and a service charge if the end of the month balance is below $40.00. Paragraph (b) is proposed to be amended by revising the present sentence to refer to post-issuance fees and by adding a second sentence which would specifically provide in the regulations for the possibility of an applicant giving a general authorization to charge any fee due under §§1.16-1.18 in a particular application to a deposit account during the entire pendency of the application. This general authorization would not apply after the patent issues, e.g., to maintenance fees. The last sentence of paragraph (b) would permit fees during reexamination to be charged to a deposit account by filing an authorization with the request for reexamination.

Section 1.26, if amended as proposed, would provide in paragraph (a) that a withdrawal of a request for an oral hearing would not entitle appellant to a refund. Proposed paragraph 1.26(a) would also raise the amount which would not be refunded without specific request from fifty cents to one dollar. Present paragraph (b) relating to refunds of international search fees during subsequent examination of a national application would be deleted since such refunds have been found to be without a sound financial basis and cause difficulties in administration. The time difference required to prepare international search reports with and without a prior application has been found to be very small and the effort required to process refunds has been found to be quite large. Accordingly, it is proposed that paragraph (b) be deleted. Paragraph (c) is proposed to be amended to bring the spelling of "requester" into conformance with that used in other sections of the regulations.

Section 1.45, if amended as proposed, would provide in paragraphs (b) and (c) for a petition and petition fee to be filed to correct misjoinder of inventorship situations in pending applications. The fee would cover the additional time required by the Office to process such applications.

Section 1.47, if amended as proposed, would provide for petitions and fees for filing applications signed by less than all inventors.

Section 1.51, if amended as proposed, would refer to the filing fees in proposed new §1.16 and add a new paragraph (c) indicating

that applicants may file authorizations to charge fees required under any of §§1.16-1.18 to deposit accounts.

Section 1.52, if amended as proposed, would add a reference in paragraph (a) to proposed new paragraph (d). Proposed new paragraph (d) would provide in the rules for filing an application in a language other than English if a verified English translation and fee under §1.17(k) are timely submitted.

Section 1.55, if amended as proposed, would amend paragraph (b) to require a petition and fee for processing priority papers submitted after the issue fee is paid.

Section 1.75, if amended as proposed, would add a reference to proposed §1.16 and a sentence referring to the fee for multiple dependent claims set forth in proposed §1.16(d).

Section 1.85, if amended as proposed, would delete the sentence relating to mounting of informal drawings.

Section 1.86, if removed as proposed, would delete the reference to the Office draftsman making drawings since such service is no longer available.

Section 1.102, if amended as proposed, would amend paragraph (a) and add new paragraphs (c) and (d). Revised paragraph (a) would refer to paragraph (b) and added paragraphs (c) and (d). Proposed paragraph (c) requires a petition but no fee where the basis for the petition to make special is the applicant's age or health or the impact of the invention on improving the environment or conservation of energy. Proposed paragraph (d) would require a petition and the fee set forth in §1.17(i) for petitions to make special on grounds other than those above.

Section 1.103, if amended as proposed, would amend paragraph (a) to provide for filing a petition and the fee set forth in §1.17(i) for a suspension of action except that no fee would be required where the reason for the suspension is the fault of the Patent and Trademark Office. Paragraph (b) is amended to clearly indicate that suspensions are directed to actions by the Office and not responses by the applicant.

Section 1.104, paragraph (d), if amended as proposed, would change the fee reference to correspond to proposed §1.21(e).

Section 1.134, if added as proposed, would indicate that unless applicant is notified of any non-statutory or shortened statutory period in an Office action, a maximum period for response of six months is allowed.

Section 1.135, if amended as proposed, would provide that if no response is filed within the time set in the Office action under proposed §1.134 or as it may be extended under proposed §1.136,

the application would be abandoned unless an Office action would indicate that another consequence, such as disclaimer, would take place. Paragraph (b), as proposed, would include a reference to paragraph (a). Paragraph (c), as proposed to be amended, would add that applicant's reply must be a bona fide attempt to respond as well as to advance the case to final action in order for applicant to be given an opportunity to supply any omission.

Section 1.136, if amended as proposed, would revise the title and provide for two distinct procedures to extend the period for action or response in particular situations. The procedure which is available for use in a particular situation would depend upon the circumstances. Paragraph 1.136(a), as proposed, would permit an applicant to file a petition for extension of time and a fee as proposed in §1.17(a), (b), (c), or (d) up to four months after the end of the time period to take action except (1) where prohibited by statute, (2) in interference proceedings, or (3) where applicant has been notified otherwise in an Office action. The petition and fee could be filed prior to or with the response. The filing of the petition and fee would extend the time period to take action up to four months dependent on the amount of the fee paid except in those circumstances noted above. Proposed paragraph 1.136(a) would effectively reduce the amount of paperwork required by applicants and the Office since the extension would be effective upon filing of the petition and without acknowledgment or action by the Office and since the petition and fee could be filed with the response. Proposed paragraph (b) provides for requests for extensions of time upon a showing of sufficient cause when the procedure of proposed paragraph (a) is not available. Although the petition and fee procedure of §1.136(a) would normally be available within 4 months after a set period for response has expired, an extension request for cause under §1.136(b) must be filed during the set period for response. If paragraph (b) is amended as proposed, the sentence relating to who may grant an extension under paragraph (b) would be eliminated thereby providing additional flexibility to designate persons to act on requests under paragraph (b). Extensions of time in interference proceedings are governed by §1.245.

Section 1.165, paragraph (b), if amended as proposed, would have deleted therefrom the last sentence which refers to a fee for mounting copies. Since little or no need has been found for this provision in the rules, it is being proposed to be deleted.

Section 1.171, as proposed, would add a reference to proposed §1.19(b)(2) which sets forth the fee for title reports.

Section 1.177, if amended as proposed, would require a petition and fee as set forth in proposed §1.17(i) where it is desired that divisions of a reissue issue on different dates.

Section 1.181, if amended as proposed, would indicate in paragraph (d) that if a petition to the Commissioner is filed under the provisions of a section which requires a petition fee and the required fee is not paid, the petition will be dismissed. The proposed amendment to paragraph (g) would delete the reference to §1.183.

Section 1.182, if amended as proposed, would add a sentence requiring any petition filed under this section to be accompanied by the petition fee set forth in §1.17(h).

Section 1.183, if amended as proposed, would specifically provide for the inherent authority of the Commissioner to suspend or waive the rules at the Commissioner's initiative. The proposed amendment also recognizes the Commissioner's authority to designate others to act for the Commissioner in appropriate circumstances. The proposed rule language would also require the payment of the petition fee set forth in §1.17(h) if a petition to suspend or waive the rules is filed.

Section 1.191, if amended as proposed, would change the fee reference for filing a notice of appeal to proposed §1.17(e) and would delete the word "primary" since some actions which are subject to appeal are not made by a "primary" examiner.

Section 1.192, paragraph (a), if amended as proposed, would refer to the fee for filing an appeal brief set forth in proposed §1.17(f) and the fee for an oral hearing set forth in proposed §1.17(g). It is also proposed to remove from paragraph 1.192(a) the present language requiring a showing of sufficient cause for extensions of time for filing the brief. Under the proposed amendment to paragraph 1.192(a), the provisions of §1.136 would apply to extensions of time for filing the brief.

Section 1.194, if amended as proposed, would revise paragraphs (b) and (c) to refer to the fee for oral hearing in proposed §1.17(g).

Section 1.197, paragraph (b), if amended as proposed, would modify the last sentence relating to extensions of time to make the provisions of §1.136 applicable thereto. Paragraph 1.197(b) is also proposed to be amended to limit requests for rehearing, reconsideration or modification of a Board decision to one. This would not significantly change present practice since such requests are now required to be filed within thirty days from the date of the original decision.

Section 1.231, paragraph (a)(1), if amended as proposed, would change the reference to the fee for filing a request for reexamination to §1.20(c).

Sections 1.245 and 1.246, if amended as proposed, would indicate that the provisions of proposed §1.136 do not apply to time periods in interferences.

Section 1.263, if amended as proposed, would add a reference to the proposed fee for filing a disclaimer contained in proposed §1.20(d).

New section 1.268, if added as proposed, would provide a rule relating to the filing of interference settlement agreements. The rule generally follows 35 U.S.C. 135(c) and provides for filing of petitions and fees in proposed paragraphs 1.268(b) and (c).

Section 1.292, paragraph (a), if amended as proposed, would require the payment of the fee set forth in proposed §1.17(j) with any petition for the institution of public use proceedings.

Section 1.304, paragraph (a), if amended as proposed, would provide for extension of the time period for filing an appeal or civil action to be subject to the proposed provisions of §1.136 and refer to the Court of Appeals for the Federal Circuit rather than to the Court of Customs and Patent Appeals.

Section 1.311, if amended as proposed, would designate the present section as paragraph (a) and revise it in several ways. Proposed paragraph (a) would indicate that the notice of allowance would be sent to the correspondence address as indicated under §1.33. The issue fee (§1.18) would be indicated as being due 3 months from the date of mailing of the notice of allowance. Proposed paragraph 1.311(b) would permit an authorization to be filed either before or after the mailing of the notice of allowance to charge the issue fee to a deposit account.

Section 1.312, if amended as proposed, would divide the section into two paragraphs and would require a petition and payment of the fee under §1.17(i) for any amendment filed after payment of the issue fee.

Section 1.313, if amended as proposed, would provide in paragraph (a) clear basis for the Office withdrawing applications from issue on its own initiative or upon petition by applicant accompanied by the petition fee set forth in proposed §1.17(i). Any accompanying amendment must comply with the requirements of proposed §1.312. Proposed paragraph (b) clarifies when an application will be withdrawn from issue after assignment of the issue date and patent number.

Section 1.314, if amended as proposed, would revise the wording in view of the proposed issue fees and would add reference to the possibility that an application in which the issue fee was paid

could be withdrawn from issue under §1.313 or the issuance thereof deferred pursuant to a petition by the applicant and the payment of the petition fee under §1.17(i).

Section 1.317, paragraph (a), is proposed to be amended to show that it applies only to applications in which the issue fee was paid prior to October 1, 1982. Issue fees paid on or after that date will be in accordance with §1.18.

Section 1.321, if amended as proposed, would include references in both paragraphs (a) and (b) to the statutory disclaimer fee in proposed §1.20(d) and delete the reference to §1.21.

Section 1.324, if amended as proposed, would include reference to the fee in proposed §1.20(b) and change the word "application" to --petition--.

Section 1.331, paragraph (a), if amended as proposed, would have a new sentence which gives the citation of the fee for recording assignments and indicates that instruments recorded on the Government register under Part 7 of Title 37, Code of Federal Regulations do not require payment of such fee.

Section 1.332, if amended as proposed, would refer to the proposed fee in §1.21(h) for recording an assignment.

Section 1.334, if amended as proposed, would divide the rule into three paragraphs and would also require an address of the assignee so that correspondence could be directed to the assignee if required. Proposed new paragraph (c) would provide for filing a petition and the fee set in proposed §1.17(i) seeking to have the patent issue to the assignee where such assignment was not recorded at the time the issue fee was paid.

Section 1.341, paragraph (h), if amended as proposed, would refer to the proposed fee set forth in §1.21(a)(2) for registration of an attorney or agent.

Section 1.347, if amended as proposed, would add a sentence referring to the proposed fee set forth in §1.21(a)(3) for reinstatement of an attorney or agent.

Section 1.445, if amended as proposed, would increase the PCT transmittal fee and search fee to a level needed to cover the cost of performing the required functions. The supplemental search fee for inventions in addition to the first, where lack of unity of invention has been found, is being proposed to be reduced since the present fee is more than is required to cover the costs. The national fee amount is proposed to be the same as the national application filing fees in proposed §1.16(a)-(d).

Section 1.446, if amended as proposed, would delete paragraph (b) which provides for refunds of PCT search fees where such search

is based in part on an earlier application. Experience has shown that the value of the earlier search and the cost of processing refunds do not warrant the substantial refund provisions and that the refund provisions are difficult to administer equitably.

Section 1.451, if amended as proposed in paragraph (b), would revise the citation of the fees for a certified copy.

Section 1.510, if amended as proposed, would cite the proposed section which sets forth the fee for requesting reexamination. There is no change in the amount of this fee.

Part 3, if deleted as proposed, would eliminate all of the patent forms from the Code of Federal Regulations. The Patent and Trademark Office has prepared a booklet entitled "Patent and Trademark Forms Booklet" which is available from the Superintendent of Documents and includes full size copies of substantially all of the forms in Part 3. Since the forms are not mandatory, no need is seen to retain them in the Code of Federal Regulations.

Alternative A - Proposed Rule Changes Under Only Public Law 96-517

The following sections are proposed to be changed under only Public Law 96-517:

Proposed new §1.16 relates to application filing fees. Proposed paragraph (a) sets a basic filing fee of $150 which would be required in all original patent applications. The term "original" as used in the regulations means "non-reissue". An "original" application could be a first filing, a division, a continuation, or a continuation-in-part application. Proposed paragraph 1.16 (b) provides for an additional fee of $15 for each independent claim in excess of 3 in an original application. Proposed new paragraph 1.16(c) would provide for an additional fee of $5 for each claim in excess of 20, whether independent or dependent. A multiple dependent claim will be considered to be that number of claims to which direct reference is made. Also, any claim which refers to a multiple dependent claim will be considered for fee calculation purposes to be the number of claims to which direct reference is made in the multiple dependent claim. Proposed paragraph 1.16(d) provides for a new fee of $50 in each application which contains one or more multiple dependent claims. The note following proposed paragraph 1.16(d) is intended to clearly indicate that the applicant, attorney, or agent may pay any additional fees required under proposed paragraphs (b), (c) and (d) of §1.16, or cancel such claims without payment of such additional fees, either at the time of filing or by the time a response is due to any notice of fee deficiency mailed by the Office. If the fees are not paid or the claims cancelled by the end of the period set for response to the notice of fee deficiency, the application would be held

abandoned. Paragraph 1.16(e) would be reserved under this Alternative (Alternative A). Proposed new paragraph 1.16(f) provides for a filing fee of $63.00 for a design application.

Proposed paragraphs 1.16(g) and (h) would establish the filing fees for plant and reissue applications.

Proposed paragraphs 1.16(i) and (j) would set forth the additional claim fees required in reissue applications based on claims in excess of those in the original patent.

Proposed new §1.17 relates to patent application processing fees which are normally due during the time a patent application is pending. Proposed new paragraphs (a), (b), (c) and (d) provide for the payment of an extension fee for obtaining an automatic extension of time upon filing a petition as provided for in proposed §1.136(a). The extension fee could be paid during the period for which an extension of time to respond is desired, or after the original period for response has expired, provided that any maximum statutory period which may apply has not expired. The fees set forth in proposed §1.17 are the total fees required under §1.136(a) for the periods indicated and any extension fee previously paid to extend a particular period is credited toward the total extension fee required. Proposed paragraph (e) would set forth the fee for filing a notice of appeal to the Board of Appeals. Proposed paragraph (f) would set forth the fee for filing an appeal brief by appellant. Proposed paragraph (g) would provide for a new fee for requesting an oral hearing before the Board of Appeals. Proposed paragraphs (h) and (i) would set forth fees which would be required with petitions to the Commissioner under those sections of the regulations which specifically indicate that such petition fees are required. The amounts of the fees are set at two levels based on the degree of complexity of the petitions in order to recover the estimated average cost to the Office of processing the petitions. Proposed paragraph (j) would provide for a fee to be paid with any petition for institution of a public use proceeding to cover the estimated average cost of such a proceeding. Proposed new paragraph (k) would set forth a new fee for processing an application filed with a non-English language specification. The fee would cover the additional processing costs involved in such applications. Proposed new paragraph (l) would incorporate into the regulations the fee which would be charged for filing a petition to revive or to accept late payment of the issue fee where the delay was unavoidable.

Proposed new §1.18 would set the amount of the issue fees pursuant to the authority contained in Public Law 96-517. Proposed new paragraph (a) would establish an issue fee of $250.00 for all original and reissue patents except for designs and plants. Proposed new paragraph (b) would set the amount of the issue fee for a design patent at a uniform $88.00 even though

terms of 3½, 7, or 14 years may be requested. Proposed new paragraph (c) would establish the issue fee for a plant patent.

Proposed new §1.20 would set fees for various post-issuance functions performed by the Office. Proposed new paragraph (a) would set forth a fee for providing a certificate of correction of an applicant's mistake. Proposed new paragraph (b) would set a fee to accompany a petition to correct inventorship in a patent under §1.324. Proposed new paragraph (c) would transfer the $1,500.00 fee for requesting reexamination from present §1.21(x) to this new section. Proposed new paragraph (d) would provide for a fee for filing a disclaimer under §1.321. Maintenance fees required by Public Law 96-517 are placed in this section. Specific maintenance fees, which are required by Public Law 96-517, for those patents resulting from applications filed on and after December 12, 1980 and up to the date of enactment of H.R. 6260 are being proposed at this time in paragraphs 1.20(e)-(g). The fees proposed in paragraphs 1.20(e)-(g) are only set at one level because they are proposed under Public Law 96-517 and are not subject to reduction for small entities. The details implementing the payment of maintenance fees are not being proposed at this time.

Section 1.137, as proposed, would designate the existing section as paragraph (a), add a reference to the proposed new fee under §1.17(l) for a petition for revival where the delay which resulted in abandonment was unavoidable, and state when the showing that the delay was unavoidable must be verified. Paragraph 1.137(b) would be reserved under this Alternative (Alternative A). Proposed paragraph (c) would require that any petition for revival under paragraphs (a) of §1.137 be promptly filed and that a terminal disclaimer, equivalent to the period of abandonment of the application, be filed with any petition filed more than six months after the date of abandonment.

Section 1.155, if amended as proposed, would refer in paragraph (a) to proposed §1.18(b) which sets forth the issue fee for a design application as being $88.00. Paragraph 1.155(b), as proposed, would include a reference to the fee for delayed payment of the issue fee set forth in §1.17(l) where the delay in payment was unavoidable and state when showings that the delay was unavoidable must be verified. Paragraph 1.155(c) would be reserved under this Alternative (Alternative A). Paragraph 1.155(d) is proposed to be added to require a terminal disclaimer equivalent to the period of abandonment of the application where any petition under this section is not filed within six months of the date of abandonment.

Section 1.316 is proposed to be amended to clarify the language and to delete reference to the fee specified in the notice of allowance. Paragraph (b) is proposed to be amended to provide for petitions for revival with the fee in proposed §1.17(l) where the delay in payment was unavoidable and to state when showings

that the delay was unavoidable must be verified. Paragraph (c) would be reserved under this Alternative (Alternative A). Paragraph (d) is proposed to be added to require a terminal disclaimer equivalent to the period of abandonment of the application where any petition under this section is not filed within six months of the date of abandonment.

Alternative B - Proposed Rule Changes Under H.R. 6260

The following sections are proposed to be changed under H.R. 6260:

Section 1.9, if amended as proposed, would add new paragraphs (c) - (f) which define independent inventor, small business concern, and nonprofit organization as used in 37 CFR, Chapter I. Each of these would be identified as a "small entity" for purposes of paying fees which would be set under §41(a) and (b) of Title 35, United States Code, as amended by H.R. 6260.

H.R. 6260 would authorize the Commissioner to establish regulations defining independent inventors and nonprofit organizations. Proposed §1.9(c) would define an independent inventor as any inventor who (1) has not assigned, granted, conveyed, or licensed, and (2) is under no obligation to assign, grant, convey, or license, any rights in the invention, including (i) the right to make, use or sell the invention, and (ii) the right to exclude others from making, using, or selling the invention, to any person who could not likewise be classified as an independent inventor if that person had made the invention, or to any concern which would not qualify as a small business concern or a nonprofit organization under §1.9. Once an individual sole inventor, or one of several joint inventors, has assigned, granted, conveyed, or licensed, or comes under an obligation to assign, grant, convey, or license, any rights to the invention to anyone who could not likewise obtain status as a small entity, the inventor(s) would no longer be entitled to pay fees in the amounts established for an independent inventor (§1.9(c)). Proposed §1.9(c) would permit an individual inventor to make an assignment, grant, conveyance, or license of partial rights in the invention to another individual or individuals who could qualify as an independent inventor or inventors if they had made the invention. In addition, proposed §1.9(c) would permit an individual inventor to make an assignment, grant, conveyance, or license of partial rights in the invention to a small business concern or nonprofit organization. Under the circumstances described in the previous two sentences the individual inventor could still qualify as an independent inventor. However, if the independent inventor assigned, granted, conveyed, or licensed, or came under an obligation to assign, grant, convey, or license, any rights to the invention to any individual or organization which could not qualify as a small entity (§1.9(f)), then the inventor would no longer qualify as an independent inventor. Proposed §1.9(d) would define a small business concern by

reference to regulations established by the Small Business Administration. This requirement would be established by enactment of H.R. 6260. Proposed §1.9(e) would define a nonprofit organization by utilizing the definition contained in 35 U.S.C. 201(i). Since a nonprofit organization has already been defined in Title 35, United States Code, that definition is used in this proposal. Proposed §1.9(f) would identify an independent inventor, a small business concern or a nonprofit organization as a "small entity" for purposes of paying fees set under §41(a) and (b) of Title 35, United States Code, as amended by H.R. 6260. Fees established under §41(c) or (d) of Title 35, United States Code, would not be reduced for small entities since such a reduction is not permitted or authorized by H.R. 6260. Proposed paragraphs (c)-(f) of §1.9 should be read together with proposed new §§1.27 and 1.28 which deal with establishing status as a small entity and the effect thereof.

Section 1.16, as proposed in Alternative B, would establish in the regulations those statutory fees which would be charged by the Commissioner for filing patent applications under H.R. 6260. Section 1.16 also includes additional filing fees set in 35 U.S.C. 41(a)(1) to cover the cost of examining complexities presented by certain applications, e.g., applications containing more than a specified number of claims and any application containing a multiple dependent claim. Proposed §1.16 also provides that fees will be charged when the number of claims is increased above the specified number or when a multiple dependent claim is first presented, whether on filing or at a later point in processing.

Under 35 U.S.C. 41(a) as it would be amended by H.R. 6260, the filing fee for an original patent, except in design or plant cases, is $300. In addition, on filing or on presentation at any other time, $30 is due for each claim in independent form which is in excess of three, $10 is due for each claim (whether independent or dependent) which is in excess of twenty, and $100 is due for each application containing a multiple dependent claim. The latter fee is a one-time charge per application due the first time a multiple dependent claim is presented for examination. For the purpose of computing fees, a multiple dependent claim as referred to in §112 of Title 35, United States Code, or any claim depending therefrom, will be considered as separate dependent claims in accordance with the number of claims to which reference is made.

The fees proposed in §1.16 are reduced by 50 per centum for applications filed by independent inventors, nonprofit organizations and small business concerns in accordance with H.R. 6260. Therefore, two fees are listed under each proposed paragraph.

Proposed new §1.16 relates to application filing fees. Proposed paragraph (a) sets a basic filing fee of $300 which would be

required in all original patent applications. The term "original" as used in the regulations means "non-reissue". An "original" application could be a first filing, a division, a continuation, or a continuation-in-part application. Proposed paragraph 1.16 (b) provides for an additional fee of $30 for each independent claim in excess of 3 in an original application. Proposed new paragraph 1.16(c) would provide for an additional fee of $10 for each claim in excess of 20, whether independent or dependent. A multiple dependent claim will be considered to be that number of claims to which direct reference is made. Also, any claim which refers to a multiple dependent claim will be considered for fee calculation purposes to be the number of claims to which direct reference is made in the multiple dependent claim. Proposed paragraph 1.16(d) provides for a new fee of $100 in each application which contains one or more multiple dependent claims. The note following proposed paragraph 1.16(d) is intended to clearly indicate that the applicant, attorney, or agent may pay any additional fees required under proposed paragraphs (b), (c) and (d) of §1.16, or cancel such claims without payment of such additional fees, either at the time of filing or by the time a response is due to any notice of fee deficiency mailed by the Office. If the fees are not paid or the claims cancelled by the end of the period set for response to the notice of fee deficiency, the application would be held abandoned. Proposed new paragraph 1.16(e) would establish the amount of the surcharge for filing the basic filing fee or oath or declaration on a date later than the filing date of the application. This fee is being proposed at this time, but would only be made effective when the statutory authority for the late filing of the fee or the oath or declaration becomes effective under 35 U.S.C. 111, as it would be amended by H.R. 6260. Proposed new paragraph 1.16(f) provides for a filing fee of $125.00 for a design application.

Proposed paragraphs 1.16(g) and (h) would incorporate into the regulations the filing fees for plant and reissue applications.

Proposed paragraphs 1.16(i) and (j) would set forth the additional claim fees required in reissue applications based on claims in excess of those in the original patent.

Proposed new §1.17 relates to patent application processing fees which are normally due during the time a patent application is pending. Proposed new paragraphs (a), (b), (c) and (d) provide for the payment of an extension fee for obtaining an automatic extension of time upon filing a petition as provided for in proposed §1.136(a). The extension fee could be paid during the period for which an extension of time to respond is desired, or after the original period for response has expired, provided that any maximum statutory period which may apply has not expired. The fees set forth in proposed §1.17 are the total fees required under §1.136(a) for the periods indicated and any extension fee previously paid to extend a particular period is credited toward

the total extension fee required. Proposed paragraph (e) would set forth the fee for filing a notice of appeal to the Board of Appeals. Proposed paragraph (f) would set forth the fee for filing an appeal brief by appellant. Proposed paragraph (g) would provide for a new fee for requesting an oral hearing before the Board of Appeals. Proposed paragraphs (h) and (i) would set forth fees which would be required with petitions to the Commissioner under those sections of the regulations which specifically indicate that such petition fees are required. The amounts of the fees are set at two levels based on the degree of complexity of the petitions in order to recover the estimated average cost to the Office of processing the petitions. Proposed paragraph (j) would provide for a fee to be paid with any petition for institution of a public use proceeding to cover the estimated average cost of such a proceeding. Proposed new paragraph (k) would set forth a new fee for processing an application filed with a non-English language specification. The fee would cover the additional processing costs involved in such applications. Proposed new paragraph (l) would incorporate into the regulations the fee which would be charged for filing a petition to revive or to accept late payment of the issue fee where the delay was unavoidable. Proposed new paragraph (m) would incorporate into the regulations the fee which would be established in 35 U.S.C. 41(a) 7, as amended by H.R. 6260, to be charged for a petition for the revival of an unintentionally abandoned application for patent or for the unintentionally delayed payment of an issue fee.

Since proposed paragraphs 1.17(h), (i), (j) and (k) are proposed under the authority given the Commissioner under 35 U.S.C. 41(d) as it would be amended by H.R. 6260, only one level of fee is proposed. H.R. 6260 would only provide for the reduction of fees charged to small entities of those fees established in 35 U.S.C. 41(a) and (b).

Proposed new §1.18 would set the amount of the issue fees specified by H.R. 6260. Proposed new paragraph (a) would establish an issue fee of $500.00 for all original and reissue patents except for designs and plants. Proposed new paragraph (b) would set the amount of the issue fee for a design patent. Proposed new paragraph (c) would set forth the issue fee for a plant patent. All fees proposed in §1.18 would be reduced by 50 per centum for small entities.

Proposed new §1.20 would set fees for various post-issuance functions performed by the Office. Proposed new paragraph (a) would set forth a fee for providing a certificate of correction of an applicant's mistake. Proposed new paragraph (b) would set a fee to accompany a petition to correct inventorship in a patent under §1.324. Proposed new paragraph (c) would transfer the $1,500.00 fee for requesting reexamination from present §1.21(x) to this new section. Proposed new paragraph (d) would provide for a fee for filing a disclaimer under §1.321. Maintenance fees

required by Public Law 96-517 and which would be set in H.R. 6260 are placed in this section. Specific maintenance fees, which are required by Public Law 96-517, for those patents resulting from applications filed on and after December 12, 1980 and up to the date of enactment of H.R. 6260 are being proposed at this time in paragraphs 1.20(e)-(g). Proposed new paragraphs 1.20(h)-(j) would incorporate into the regulations the maintenance fees which would be provided in 35 U.S.C. 41(b) by H.R. 6260. The fees proposed in paragraphs 1.20(a)-(c) are only set at one level because they are proposed under 35 U.S.C. 41(d). The fees proposed in paragraphs 1.20(e)-(g) are only set at one level because they are proposed under Public Law 96-517 and are not subject to reduction for small entities. The details implementing the payment of maintenance fees are not being proposed at this time.

Proposed new §1.27 would provide in paragraph (a) that any person seeking to establish status as a small entity as defined in proposed §1.9(f) for the purpose of paying reduced fees must file a statement to that effect prior to or with the payment of such fees. Proposed paragraph 1.27(b) provides specifically for inventors filing statements claiming status as independent inventors. Proposed paragraph 1.27(c) would provide for claiming status as a small business concern. Proposed paragraph 1.27(d) would provide for claiming status as a nonprofit organization. Under proposed §1.27, as long as all of the rights remain in small entities, the fees for a small entity can be paid. This would include circumstances where the rights were divided between an independent inventor, a small business concern and a nonprofit organization or any combination thereof.

Proposed new §1.28 would provide guidance as to the effect of failure to establish, or notify the Office of any change from, small entity status. Proposed paragraph 1.28(a) would also provide that once status as a small entity has been established in an application or patent, the status remains in that application or patent without the filing of a further verified statement pursuant to §1.27, unless the status is changed. Under proposed paragraph 1.28(a), status as a small entity in one application or patent does not affect any other application or patent. Proposed paragraph 1.28(b) requires that notification of any change in status resulting in loss of entitlement to small entity status be filed in the application or patent prior to paying, or at the time of paying, any fee due after the date on which status as a small entity is no longer appropriate. Proposed paragraph 1.28(b) would also provide that the payment of any fee in an application or patent as a small entity, once small entity status has been established, would serve as a representation that such payment as a small entity is proper at the time the payment is made. Section 1.28 also would provide guidance as to the effect of improperly establishing status as a small entity. The intent of the reduced fees for small entities is to soften the impact of the fee increases under §41(a) and (b)

of Title 35, United States Code, as such sections would be amended by H.R. 6260, upon those who are least able to absorb the increased fees without overall damage to their ability to participate in the patent system through the filing, issuing and maintaining of patents. Accordingly, any attempt to improperly establish status as a small entity would be viewed as a serious matter by the Office and proposed paragraph 1.28(d) indicates that any attempt to fraudulently establish status as a small entity or pay fees as a small entity will be considered as a fraud practiced or attempted on the Office. Likewise, improperly and through gross negligence establishing status as a small entity or paying fees as a small entity will be considered as a fraud practiced or attempted on the Office. Normally, the Office will not question a claim to status as a small entity. However, if the Office must resolve such an issue in a question arising before it, the Office will look to the actual or practical status of the individual or organization claiming status as a small entity rather than the professed or apparent status.

Section 1.66, if amended as proposed, would provide for the use of an apostille of a foreign official to attest to oaths or affirmations made in foreign countries in accordance with 35 U.S.C. 115 and 261, as amended by H.R. 6260.

Section 1.137, as proposed, would designate the existing section as paragraph (a), add a reference to the proposed new fee under §1.17(l) for a petition for revival where the delay which resulted in abandonment was unavoidable, and state when the showing that the delay was unavoidable must be verified. Proposed new paragraph 1.137(b) would provide for filing a statement and a fee under proposed §1.17(m) for revival of an application which was unintentionally abandoned. Proposed paragraph (c) would require that any petition for revival under paragraphs (a) or (b) of §1.137 be promptly filed and that a terminal disclaimer, equivalent to the period of abandonment of the application, be filed with any petition filed more than six months after the date of abandonment.

Section 1.155, if amended as proposed, would refer in paragraph (a) to proposed §1.18(b) which sets forth the issue fee for a design application. Paragraph 1.155(b), as proposed, would include a reference to the fee for delayed payment of the issue fee set forth in §1.17(l) where the delay in payment was unavoidable and state when showings that the delay was unavoidable must be verified. Proposed new paragraph 1.155(c) would provide for acceptance of the late payment of the issue fee where the delay was unintentional upon petition and payment of the fee set forth in proposed §1.17(m). Paragraph 1.155(d) is proposed to be added to require a terminal disclaimer equivalent to the period of abandonment of the application where any petition under this section is not filed within six months of the date of abandonment.

Section 1.316, if amended as proposed, would implement the statutory provisions of 35 U.S.C. 41(a) with regard to petition fees for revival of applications abandoned for failure to pay the issue fee. Paragraph (b) is proposed to be amended to provide for petitions for revival with the fee in proposed §1.17(l) where the delay in payment was unavoidable and to state when showings that the delay was unavoidable must be verified. Paragraph (c) is proposed to be added to provide for petitions for revival with the fee in proposed §1.17(m) where the delay was unintentional. Paragraph (d) is proposed to be added to require a terminal disclaimer equivalent to the period of abandonment of the application where any petition under this section is not filed within six months of the date of abandonment.

Environmental, energy, and other considerations: The proposed rule change will not have a significant impact on the quality of the human environment or the conservation of energy resources.

The proposed rule change will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act. Pub. L. 96-354) for several reasons. The fees proposed under Public Law 96-517 are set to recover 50% of patent processing costs rather than full costs and generally the rate of increase in the fees is less than that of inflation since the last increase in fees in 1965. Under H.R. 6260 and this proposed rulemaking, small entities would be able to pay reduced fees for filing, issuance, and maintenance in force of patents. In general, the rule change will also expedite proceedings before the Patent and Trademark Office, changing existing procedures where they can be simplified.

The Patent and Trademark Office has determined that this proposed rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This proposed rule change would not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et. seq., since no additional record keeping or reporting requirements are placed upon the public.

(b) Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action may make application for patent on behalf of and as agent for the inventor. [Such] ▶ The oath or declaration in such an ◀ application must be accompanied by ▶ a petition including ◀ proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage, ▶ and by the required fee (§1.17(h)) ◀ and must state the last known address of the inventor. The claim to priority need be in no special form and may be made by the attorney or agent if the foreign application is referred to in the oath or declaration as required by §1.65. The claim for priority and the certified copy of the foreign application specified in the second paragraph of 35 U.S.C. 119 must be filed in the case of interference (§1.224); when necessary to overcome the date of a reference relied upon by the examiner; or when specifically required by the examiner; and in all other cases they must be filed not later than the date the issue fee is paid. If the papers filed are not in the English language, a translation need not be filed except in the three

particular instances specified in the preceding sentence, in which event a sworn translation or a translation certified as accurate by a sworn or official translator must be filed. ▶ If the priority papers are submitted after the date the issue fee is paid, they must be accompanied by a petition requesting their entry and the fee set forth in §1.17(i).◀

Any dependent claim which refers to more than one other claim ("multiple dependent claim") shall refer to such other claims in the alternative only. A multiple dependent claim shall not serve as a basis for any other multiple dependent claim. For fee calculation purposes ▶ under §1.16◀, a multiple dependent claim will be considered to be that number of claims to which direct reference is made therein. For fee calculation purposes, also, any claim depending from a multiple dependent claim will be considered to be that number of claims to which direct reference is made in that multiple dependent claim. ▶ In addition to the other filing fees, any original application which is filed with, or is amended to include, multiple dependent claims must have paid therein the fee set forth in §1.16(d).◀ Claims in dependent form shall be construed to include all the limitations of the claim incorporated by reference into the dependent claim. A multiple dependent claim shall be construed to incorporate by reference all the limitations of each of the particular claims in relation to which it is being considered.

15. Section 1.85 is proposed to be revised to read as follows:

§1.85 Informal drawings.

The requirements of §1.84 relating to drawings will be strictly enforced. [The necessary corrections or mounting will be made by the Office upon applicant's request or permission and at his expense. (See §§1.21 and 1.165.)]

16. Section 1.86 is proposed to be removed:

[§1.86 Draftsman to make drawings.

* * * * *

▶(c) A petition to make an application special may be filed without a fee if the basis for the petition is the applicant's age or health or that the invention will materially enhance the quality of the environment or materially contribute to the development or conservation of energy resources.◀

▶(d) A petition to make an application special on grounds other than those referred to in paragraph (c) of this section must be accompanied by the petition fee set forth in §1.17(i).◀

18. Section 1.103 is proposed to be amended by revising paragraphs (a) and (b) to read as follows:

§1.103 Suspension of action.

(a) Suspension of action by the Office will be granted [at the request of the applicant] for good and sufficient cause and for a reasonable time specified ▶ upon petition by the applicant and, if such cause is not the fault of the Office, the payment of the fee set forth in §1.17(i). 21. Section 1.135 is proposed to be amended by revising paragraphs (a), (b) and (c) to read as follows:

§1.135 Abandonment for failure to respond within time ▶ period ◀ [limit].

(a) If an applicant ▶ of a patent application ◀ fails to ▶ respond within the time period provided under §§1.134 and 1.136 ◀ [prosecute his application within six months after the date when the last official notice of any action by the Office was mailed to him, or within such shorter time as may be fixed (§1.136)], the application will become abandoned ▶ unless an Office action indicates otherwise ◀ .

(b) Prosecution of an application to save it from abandonment ▶ pursuant to paragraph (a) of this section ◀ must include such complete and proper action as the condition of the case may require. The admission of an amendment not responsive to the last official action, or refusal to admit the same, and any proceedings relative thereto, shall not operate to save the application from abandonment.

(c) When action by the applicant is a bona fide attempt to ▶ respond and to ◀ advance the case to final action, and is substantially a complete response to the [examiner's] ▶ Office ◀ action, but consideration of some matter or compliance with some requirement has been inadvertently omitted, opportunity to

22. Section 1.136 is proposed to be revised to read as follows:

§1.136 ▶Filing of timely responses with petition and fee for extension of time and extensions of time for cause. ◀[Time less than six months.]

(a) ▶ If an ◀ [An] applicant ▶ is ◀ [may be] required to ▶ respond within a non-statutory or shortened statutory time period, applicant may respond up to four months after the time period set if a petition for an extension of time and the fee set in §1.17 are filed prior to or with the response, unless (1) applicant is notified otherwise in an Office action or (2) the application is involved in an interference declared pursuant to §1.207. The date on which the response, the petition, and the fee have been filed is the date of the response and also the date for purposes of determining the period of extension and the corresponding amount of the fee. The expiration of the time period is determined by the amount of the fee paid. In no case may an applicant respond later than the maximum time period set by statute, or be granted an extension of time under paragraph (b) of this section when the provisions of this paragraph are available. ◀ [prosecute his application in a shorter time than six months, but not less than thirty days, whenever such shorter time is deemed necessary or expedient. Any request for such extension must be filed on or before the day on which action by the applicant is due, but in no case will the mere filing of the request effect any extension. [Only one extension may be granted by the primary examiner in his discretion; any further extension must be approved by the Commissioner.] In no case can any extension carry the date on which response to an ▶Office◀ action is due beyond [six months from the date of the action.]▶ the maximum time period set by statute or be granted when the provisions of paragraph (a) of this section are available. See §1.245 for extension of time in interference proceedings.◀

23. Section 1.165 is proposed to be amended by revising paragraph (b) to read as follows:

The Commissioner may, however, upon petition accompanied by the fee set forth in §1.17(h) and on a showing of good cause for failure to file within the time prescribed, permit the filing of the agreement or understanding during the six-month period subsequent to the termination of the interference as between the parties to the agreement or understanding.◀

Where any rights have been assigned, granted, conveyed, or licensed, or there is an obligation to assign, grant, convey, or license, any rights to a small business concern, a nonprofit organization, or any other individual, a verified statement must be filed by the individual, or a person entitled to act on behalf of the small business concern or nonprofit organization averring to their status.

Status as a small entity is waived for any fee by the failure to establish the status prior to paying, or at the time of paying, the fee. Status as a small entity must be specifically established by a verified statement filed in each application in which the status is available and desired. Once status as a small entity has been established in an application or patent, the status remains in that application or patent without the filing of a further verified statement pursuant to §1.27 unless changed, but does not affect any other application or patent, including applications or patents which are directly or indirectly dependent upon the application or patent in which the status has been established.

(b) Once status as a small entity has been established in an application or patent, notification of any change in status resulting in loss of entitlement to small entity status must be filed in the application or patent prior to paying, or at the time of paying, any fee due after the date on which status as a small entity is no longer appropriate pursuant to §1.9. The payment of any fee in an application or patent as a small entity, once small entity status has been established, shall serve as a

representation that such payment as a small entity is proper at the time the payment is made. The notification may be signed by the applicant, any person authorized to sign on behalf of the assignee, or an attorney or agent of record or acting in a representative capacity pursuant to §1.34(a).

(c) If status as a small entity is established in good faith, and fees as a small entity are paid in good faith, in any application or patent, and it is later discovered that such status as a small entity was established in error or that through error the Office was not notified of a change in status as required by paragraph (b) of this section, the error will be excused if (1) any deficiencies between the amounts paid and the amounts due are promptly paid and (2) the payment of the deficiencies is accompanied by a verified statement explaining how the error in good faith occurred and how and when it was discovered.

(d) Any attempt to fraudulently (1) establish status as a small entity or (2) pay fees as a small entity shall be considered as a fraud practiced or attempted on the Office. Improperly and through gross negligence (1) establishing status as a small entity or (2) paying fees as a small entity shall be considered as a fraud practiced or attempted on the Office. See §§1.56(d) and 1.555. ◀

application papers, except the drawings, must be attached together ▶ with the oath ◀ and a ribbon passed one or more times through all the sheets of the application, except the drawings, and the ends of said ribbon brought together under the seal before the latter is affixed and impressed, or each sheet must be impressed with the official seal of the officer before whom the oath is taken. If the papers as filed are not properly ribboned or each sheet impressed with the seal, the case will be accepted for examination, but before it is allowed, duplicate papers, prepared in compliance with the foregoing sentence, must be filed.

AGENCY: Patent and Trademark Office, Commerce

ACTION: Proposed rulemaking.

SUMMARY: Patent and Trademark Office proposes amendments of the rules of practice in trademark cases to establish fees in amounts authorized by Public Law 96-517, or as they would be authorized under H.R. 6260.

DATES: Comments must be submitted on or before July 9, 1982. A public hearing will be held July 9, 1982, beginning at 2:00 PM. Requests to present oral testimony should be received prior to July 9, 1982.

ADDRESSES: Address written comments and requests to present oral testimony to the Commissioner of Patents and Trademarks, Washington, D.C. 20231, Attention: Miss Maude Williams. The hearing will be held in Room A of Suite 1006 on the 10th floor of Building 5, Crystal Square, located at 1755 South Jefferson Davis Highway, Arlington, Virginia. Written comments and a transcript of the hearing will be available for public inspection in Room 11E-10 of Building 3, Crystal Plaza, 2021 Jefferson Davis Highway, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Miss Maude Williams by telephone at (703) 557-2222 or by mail marked to her attention and addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION: The proposed amendments will establish fees for the filing and processing of an application for the registration of a trademark or other mark, and for providing all other services and materials relating to trademarks and other marks.

Public Law 96-517 authorizes the Commissioner to establish fees for the filing and processing of an application for the registration of a trademark or other mark, and for providing all other services and materials relating to trademarks and other marks. Public Law 96-517 requires that by October 1, 1982, fees for the filing and processing of an application for the registration of a trademark or other mark be set to recover in the aggregate 50 percent of the estimated average cost to the Office of such processing. Also by October 1, 1982, fees for providing all other services and materials

relating to trademarks and other marks are to be set to recover the estimated average cost to the Office of performing the service or furnishing the material.

The proposed rule changes are designed to implement the fee provisions of Public Law 96-517 on October 1, 1982. However, on June 8, 1982, the House of Representatives passed H.R. 6260. This bill would amend the fee provisions to be implemented on October 1, 1982. This rule change proposal therefore is also designed to implement the fee provisions as they would be amended by H.R. 6260.

The rule change proposal is intended to obtain comments which will enable adoption of final rule changes based on Public Law 96-517 and/or H.R. 6260 without further notice of proposed rulemaking. Accordingly, comments are solicited on proposed rule changes which are common to Public Law 96-517 and H.R. 6260, as well as alternative rule changes which are specific to Public Law 96-517 (Alternative A) and to H.R. 6260 (Alternative B).

H.R. 6260 would repeal the provisions in Public Law 96-517 requiring that filing and processing fees be set to recover in the aggregate 50 percent of the estimated average cost of such processing to the Office, and that fees for providing all other services and materials relating to trademarks and other marks be set to recover the estimated average cost to the Office of performing the service or furnishing the material. Instead, in passing H.R. 6260, the House of Representatives recommended a fee schedule to the Commissioner for fiscal year 1983. The fee proposal in Alternative B adopts the House recommendation.

This rule change proposal does not include rule changes for implementing provisions of Public Law 96-517 or H.R. 6260 other than the fee provisions. Rule changes for implementing provisions other than the fee provisions will be published in a later rulemaking proposal.

The specific rules for which changes are proposed are §§2.6, 2.85, 2.101, 2.146, 2.162 and 2.167.

Proposed Rule Changes Common to Public Law 96-517 and H.R. 6260

Paragraph (3) of §2.85 is proposed to be amended to add reference to the fee, not previously charged, for filing a §15 affidavit.

§2.101, paragraph (c) is proposed to be amended to delete the reference to a service charge which will no longer be charged for late-filed fees on oppositions.

§2.146(b) is proposed to be changed to add a fee for petitioning the Commissioner. Paragraph (f) of this section is proposed to be deleted.

§2.162, paragraph (d) is proposed to be amended to remove the reference to a service charge for late-filed fees on §8 affidavits.

§2.167, paragraph (g) is proposed to be added to establish procedures relating to the fee for affidavits under §15, 15 U.S.C. 1065, and to state the Office's action when no fee or an insufficient fee is filed.

Part 4 is proposed to be deleted to eliminate all of the trademark forms from the Code of Federal Regulations. The Patent and Trademark Office has prepared a booklet entitled "Patent and Trademark Forms Booklet" which is available from the Superintendent of Documents and includes full size copies of all of the forms in Part 4. Since the forms are not mandatory, no need is seen to retain them in the Code of Federal Regulations.

Alternative A
Proposed Rule Change only
under Public Law 96-517

§2.6 is proposed to be revised to establish the fees authorized by Public Law 96-517 for filing and processing applications for the registration of trademarks or other marks and for providing services and materials relating to trademarks or other marks.

Alternative B
Proposed Rule Change only
under H.R. 6260

§2.6 is proposed to be revised to establish the fees recommended by the House of Representatives under H.R. 6260 for filing and processing applications for the registration of trademarks or other marks and for providing services and materials relating to trademarks or other marks. The $10 fee recommended by the House for certified copies appears in paragraphs (m) and (n) as a fee of $6.50 for a copy of a registered mark showing title and/or status and a fee of $3.50 for the certificate.

Other Considerations

The Patent and Trademark Office has determined that the proposed amendments are not major rules under Executive Order 12291. The annual effect on the economy will be less than $100 million. Although the proposed fees are higher

than current fees, the effect will be offset by a reduction in the level of taxpayer support. Competition, employment investment, productivity, innovation or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets will not be adversely affected to any significant degree.

The proposed amendments will not have significant adverse economic effect on a substantial number of small entities. (Regulatory Flexibility Act, 5 U.S.C. §§601 et seq.). The application filing fee has been kept as low as possible to foster use of the Federal registration system.

The proposed amendments do not impose a reporting or record keeping burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq. No additional information is required from the public and no additional records are required to be maintained by the Patent and Trademark Office.

Environmental, energy, and other considerations: The proposed amendments will not have a significant impact on the quality of the human environment or the conservation of energy resources.

Proposed Amendment of Regulations

Notice is hereby given that pursuant to the Commissioner's authority under Sections 31 and 41 of the Trademark Act of July 5, 1946, 15 U.S.C. §§1113, and 1123, the Patent and Trademark Office proposes to amend Parts 2 and 4 of Title 37 of the Code of Federal Regulations as set forth below with deletions indicated by brackets and additions by arrows, with the exception that deleted Part 4 is not shown.

It is proposed to amend 37 CFR, Parts 2 and 4 as follows:
